

EXPERIMENT-1

Aim

To create a simple cloud-based Student Management System using Zoho Creator to store and manage student details online.

Software Used

- Zoho Creator
- Web Browser (Chrome/Edge)
- Zoho Cloud Platform

Algorithm

1. Open Zoho Creator.
2. Create a new application.
3. Create a form with fields:
 - Student Name
 - Student ID
 - Department (Dropdown)
 - Year
 - Email
 - Phone
4. Enter student details.
5. Click Submit.
6. Store data in the cloud database.
7. Display saved records in a report.

Output:

The screenshot displays the Zoho Creator interface for a 'Student Management System' in 'Development' mode. The left sidebar contains a menu with 'Student Management...', 'Student', and 'Student Report'. The main area shows a 'Student' form with the following fields: 'Student Name' (split into 'First Name' and 'Last Name'), 'Student_ID' (with a '#####' placeholder), 'Drop Down' (a dropdown menu showing '-Select-'), 'Year' (with a '#####' placeholder), 'Email', and 'Phone' (with a country code dropdown set to '+91' and a number field containing '81234 56789'). A 'Submit' button is located at the bottom of the form. The top of the interface shows the application name, a 'View as' dropdown, a trial expiration notice ('Trial expires in 13 days'), and links for 'Upgrade', 'Edit this application', and 'Help'.

Result

The Student Management System was successfully created and tested in Zoho Creator. Student records can be stored and accessed online through the cloud.
