

EXPERIMENT-5

Aim

To develop a cloud-based SIMATS Library Book Reservation Application using Zoho Creator that allows students to reserve library books online and manage reservations through the cloud.

Software Used

- Zoho Creator
- Web Browser (Chrome/Edge)
- Zoho Cloud Platform

Algorithm

1. Open Zoho Creator.
2. Create a new application named SIMATS Library Book Reservation System.
3. Add the required fields.
4. Enter student and book details.
5. Click Submit.
6. Store reservation details in the cloud database.
7. Display reservation confirmation.

Output:

The screenshot displays the 'SIMATS Library Book Reservation' application in Zoho Creator's Development mode. The interface features a dark sidebar on the left with navigation options: 'Library' (selected), 'Library Report', and a user profile for 'KONASANI S...'. The main content area, titled 'Library', contains a form with the following fields: 'Student Name' (text input), 'Register_Number' (text input with a 6-character mask '#####'), 'Department' (dropdown menu showing '-Select-'), 'Book Title' (text input), 'Author Name' (text input), 'Reservation Date' (text input with a date mask 'dd-MMM-yyyy'), 'Email' (text input), and 'Phone' (text input with a country code dropdown set to '+91' and a partial number '81234 56789'). A blue 'Submit' button is located at the bottom right of the form. The top of the application shows the title 'SIMATS Library Book Reservation', the 'Development' mode indicator, and various utility links like 'View as', 'Trial expires in 13 days', 'Upgrade', 'Edit this application', and 'Help'.

The screenshot displays the SIMATS Library Book Reservation application interface. The top navigation bar includes the application name, a 'Development' status tag, and various utility links like 'View as', 'Trial expires in 13 days', 'Upgrade', 'Edit this application', and 'Help'. The left sidebar contains a menu with 'Library' and 'Library Report' (highlighted). The main content area, titled 'Library Report', features a table with the following data:

☐	Student Name	Register_Number	Department	Book Title	Author Name	Reservation Date	Email
☐	Reddeppa Reddy	102465061	Cyber Security	Science	Dwarkanath	25-Jun-2026	reddy@gmail.com
☐	Thulasi	192424275	AIDS	Biology	Dr.Indira P	10-Jul-2026	thulasi@gmail.com
☐	Siva Dakshitha	192425395	AIML	Computer Networks	Andrew S. Tanenbaum	15-Jun-2026	siva@gmail.com

At the bottom of the table, a pagination bar indicates 'Showing 3 of 3'.

Result

The SIMATS Library Book Reservation Application was successfully developed using Zoho Creator SaaS. The system enables students to reserve library books online, stores reservation details in the cloud, and provides reservation confirmation.
