

EXPERIMENT-6

Aim

To develop a cloud-based Product Selling Application using Zoho Creator that allows customers to order products online and stores order details in the cloud.

Software Used

- Zoho Creator
- Web Browser (Chrome/Edge)
- Zoho Cloud Platform

Algorithm

1. Open Zoho Creator.
2. Create a new application named Product Selling System.
3. Add the required fields.
4. Enter customer and product details.
5. Click Submit.
6. Store order details in the cloud database.
7. Display order confirmation.

Output:

The screenshot displays the Zoho Creator interface for a 'Product Selling Application' in the 'Development' environment. The left sidebar shows a navigation menu with 'Product Selling Application', 'Product Selling', 'Product Selling Report', and 'Product Selling Form'. The main area is titled 'Product Selling' and contains a form with the following fields: 'Customer Name' (text input), 'Product Name' (dropdown menu with '-Select-' selected), 'Quantity' (text input with a mask '#####'), 'Price' (text input with a mask '###,###.##'), 'Date' (text input with a mask 'dd-MMM-yyyy'), 'Email' (text input), and 'Phone' (text input with a country code dropdown set to '+91' and a mask '81234 56789'). A blue 'Submit' button is located at the bottom of the form. The top of the interface shows the application name, environment, and user information.
